

- COGENCY AI

Cogency: (Cogency = Reasoning, Co- = Cooperative (humans + AI),

-gency = Agentic AI) AI Scientist.

Product: Al Co-Scientist

Mission Statement: Revolutionizing Scientific Discovery with Self-

Improving AI

Chrysis Andreou, Mariam SaadAllah, Michalis Chrysostomou, Mohamad Fatfat

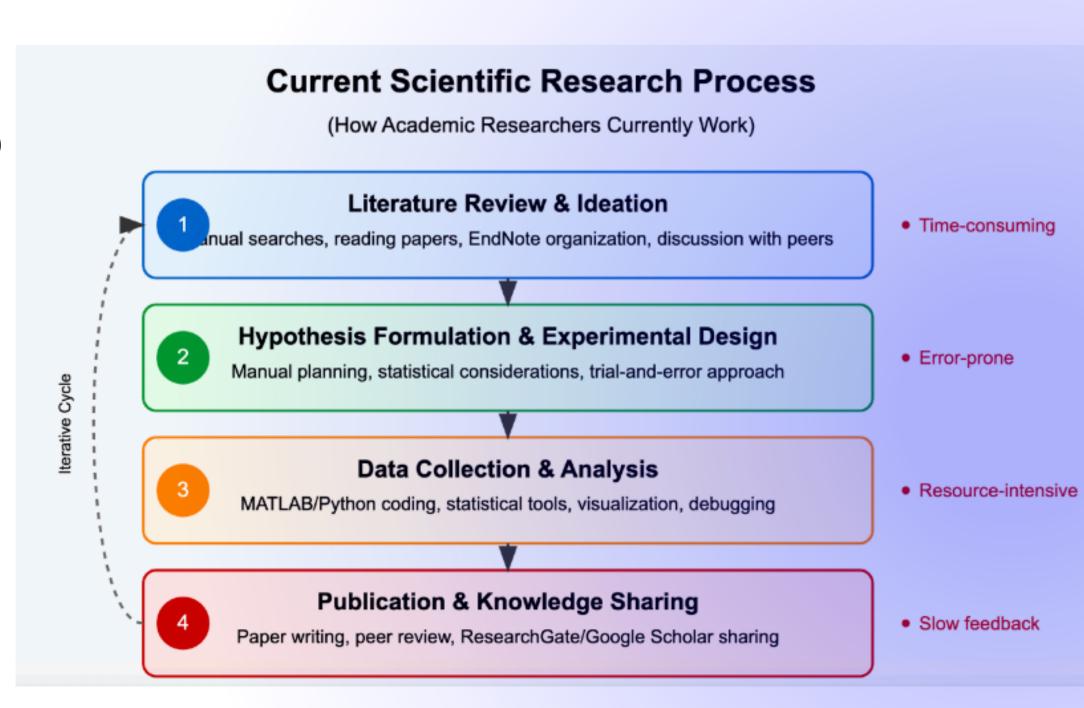

The Problem: Research Bottlenecks

Current Scientific Workflow:

- Fragmented & Manual Processes
- Time-Consuming (Avg. 50 hrs/cycle tasks)
- Error-Prone & Inefficient

• Impact:

- Slows Pace of Discovery
- Hinders Innovation Potential
- Frustrates Researchers

Our Solution: Cogency Al Co-Scientist

Al-Powered Research Partner

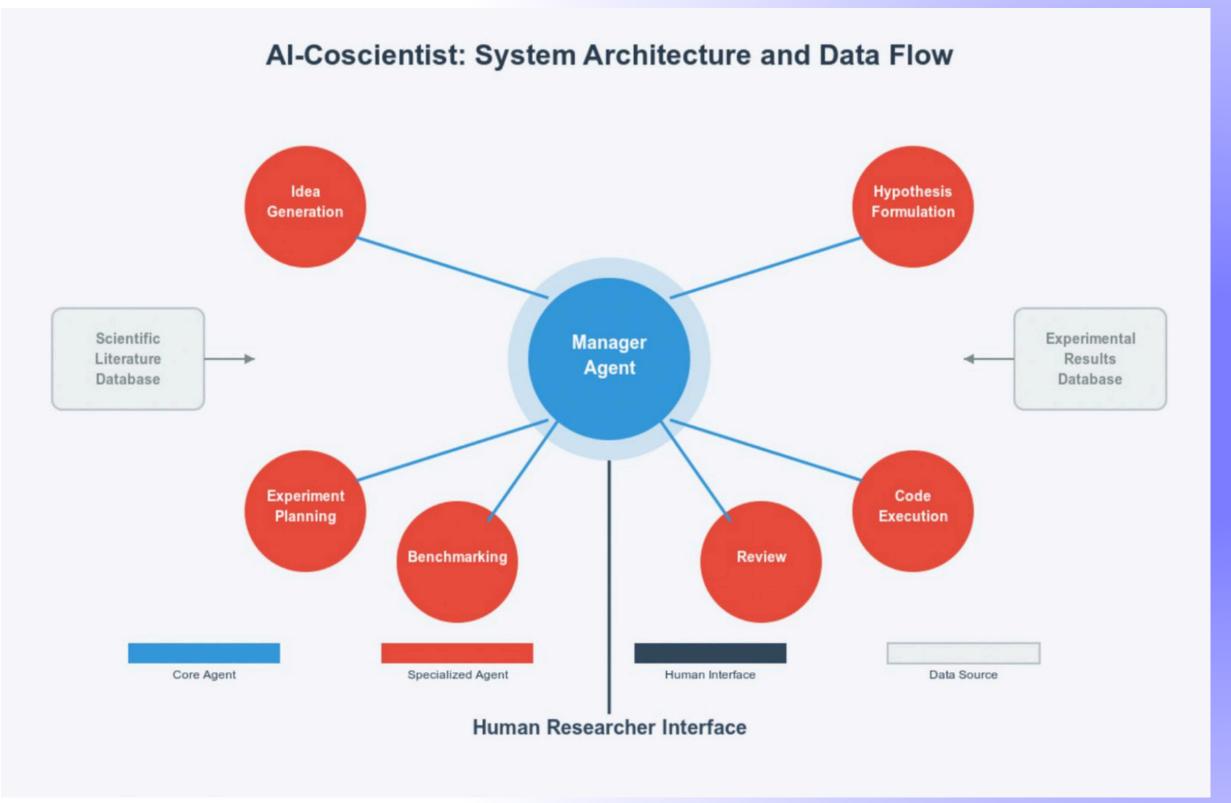

Core Innovation:

Adaptive Multi-Agent Reasoning

Unique Advantage:

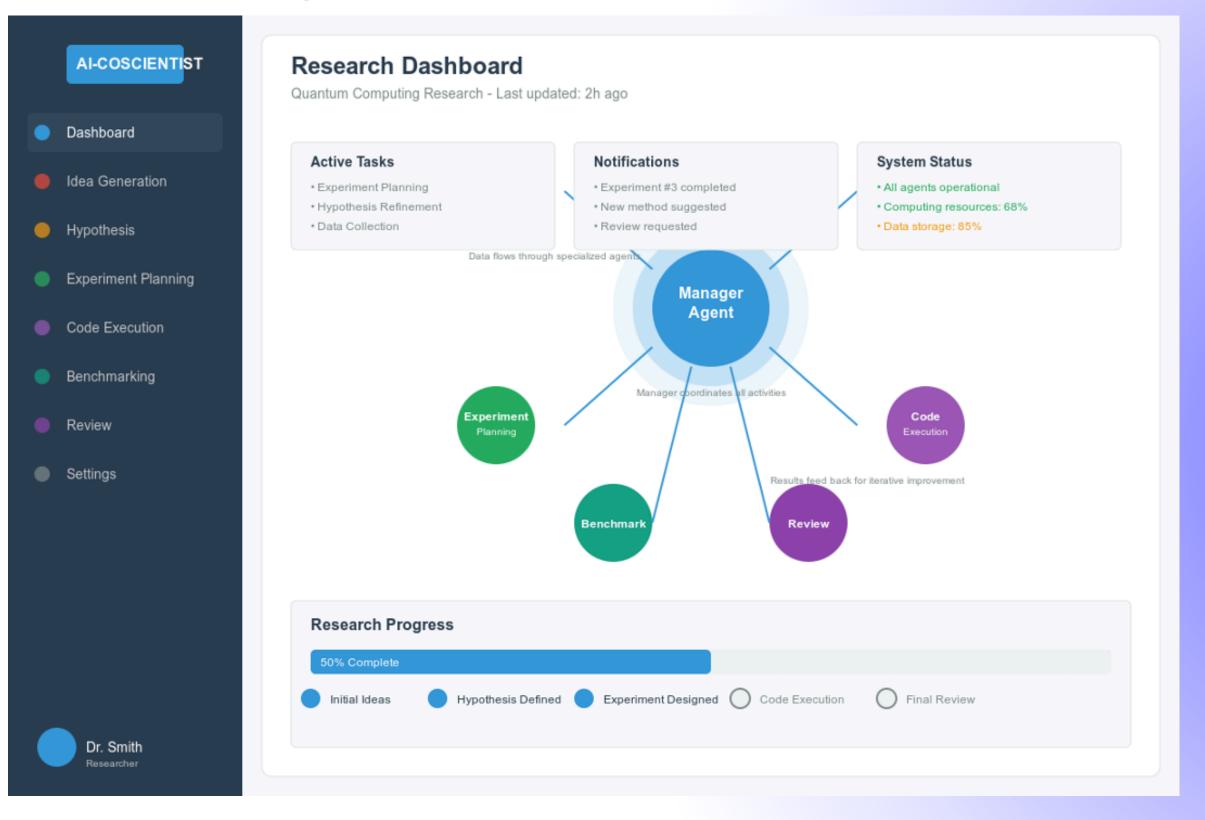

Self-Improving via Continuous Learning (Real Research Outcomes)

Key Feature: Human-inthe-Loop Control

Our Solution: Cogency Al Co-Scientist

Market Opportunity

Beachhead Market:

Early Adopter Academic Researchers (600k Users) Beachhead TAM:

~€400 Million Annually

Growth:

High Growth AI in
Research Sector
(~30% Compound
Annual Growth Rate)

Future Expansion:

Industry R&D, Government Labs

Value Proposition & Business Model

Clear Value:

- Accelerate Research Tasks (Target: 25%+)
- Enhance Research Quality & Novelty

Business Model: Tiered SaaS Subscription

Target Price: €250-€500 / User / Year (Early Adopter Focus)

Potential: Strong Long-Term LTV / COCA Ratio (>3x)

Traction, Team & The Ask

Progress: Market Research, Persona Validation, Positive Initial

Feedback (10 Potential Customers Identified)

Team: Dedicated Al Master's Students (Al Dev, Strategy, Software,

Product Manager.)

Lean Approach: Focus on Validation via Prototyping & Feedback

Next Step: Build Minimum Viable Business Product (MVBP)

Seeking: €42,000 Seed Funding

Use of Funds: MVBP Development, Pilot Program Execution, Initial

User Traction
